Dear Chairman Pai,

I write to support the Comments of the Cable Act Preservation Alliance ("CAPA") and to disapprove of the proposals and tentative conclusions set forth in the FCC's September 25 Further Notice of Proposed Rule Making in Implementation of Section 621(a)(1) of the Cable Communications Policy Act of 1984 as Amended by the Cable Television Consumer Protection and Competition Act of 1992, MB Docket 05- 311.

I live in Arlington Massachusetts where the Arlington Community Media Inc. (ACMi) programs are funded by the CAPA. I first discovered ACMi when I was a sophomore high school student. I attended after-school programs for free where I was able to learn technical hands on skills with videography and video editing equipment. We planned our own short programs to live-stream on community television, and planned for live streaming of local events. I spent 3 years until I graduated working on video projects and filming live events with my peers which has ultimately spurred my continual interest in this field. Today I attend university where I double major in film studies/production and graphic/sound design. I could not say I am where I am without this program's support and the dedicated people of whom I have learned from. 5 years later, I still remain a member of ACMi and visit there studios where I can edit personal projects with their gear and continually push myself forward in a warm environment conducive to productivity and positivity. It is my hope that the next generations can continue to thrive here.

I respectfully request that in order to continue to educate future

generations outside of the classroom, that we continue to fund the CAPA in order to maintain these programs such as ACMi and any others that may be affected. Thank you for your time and consideration.

Best regards,

Myles Goldstein
